

Therapeutic Interchange Program (TIP)

Reduce your Part A spend. Impact your bottom line.

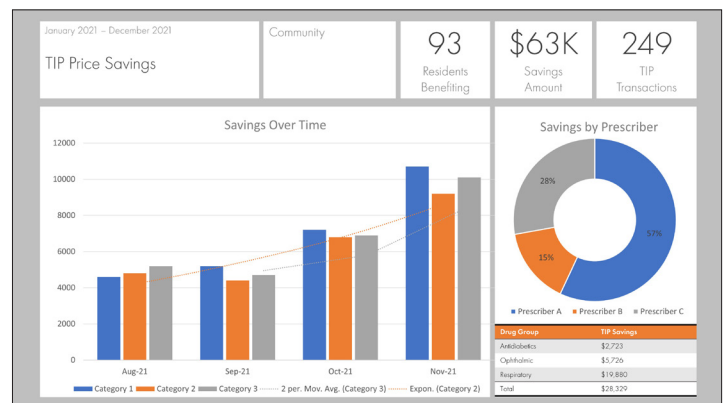

With the GuardianShield Therapeutic Interchange Program, you can have confidence that you are taking advantage of every opportunity to reduce costs while still maximizing clinical outcomes.

How it works

- Guardian's clinical advisory team carefully curates a list of more cost-effective yet clinically equivalent medications. These can replace more expensive drugs once your medical director approves.
- Prior to dispensing, TIP automatically substitutes predetermined, lower-cost equivalent medications, generating instant savings for your facility.

How do I know I'm saving?

- Detailed reports identify savings down to the patient level for transparency into the impact on your facility.
- Our team regularly reviews medication lists to ensure savings as drug prices frequently change.

Take advantage of smart savings

Contact your local Guardian Pharmacy today to learn more about GuardianShield and TIP.
